### What are Clusters and Networks? How do we get involved?

**Clusters** generally share the same geography- though in our Regional Council that area can cover a large territory. They often focus on ministry support, and can include ministry personnel only, lay people only, or be shared by both. Some Clusters focus on a particular concern shared by others in the same geographic area, such as worship, right relations between Indigenous and non-Indigenous people, being LGBT Affirming, and more.

**Networks** are more topic or concern-focused, and may cover much wider geography. Many cross provincial or Regional boundaries.

**The name isn't really important. It's the ministry and community we create that's most important.** The Regional Council has a budget you can access to support your work. Don't be shy- contact the office for more information. And please help us keep this list up to date!
