

PRAIRIE TO PINE
REGIONAL COUNCIL
The United Church of Canada

A resource to initiate a conversation with your financial institution about their climate justice priorities when it comes to investing your money.

Questions to ask of your financial institution

1. Do you have transparent reporting on Environmental, Social and Governance issues? (ESG). Can you explain? We'd like some further print or online materials to take away.

2. Do you invest in the fossil fuel industry? If so, can you give us details on how and what?

3. Do you invest in clean energy? Can you give us some examples? Again, materials to take away and study are appreciated.

4. Your observations about the content of the discussion, the tone, questions you have and points you think the Regional Council should know.

Name of financial institution, community, and date:

Thank you for your work and wisdom! You can also use our form at:
